

Press Release

New VAIO E Series

Hong Kong, June 17, 2011 – Sony Corporation of Hong Kong Limited today introduced the new VAIO E Series notebooks, featuring three screen sizes (14", 15.5" and 17.3") in a new stylish body design which blends an exquisite Truss pattern with three-dimensional texture. Equipped with either the 2nd generation Intel® Core™ or AMD processor, the new notebooks are optimized for everyday use and have further enhanced usability with user-friendly features. Users can also personalize their notebooks with up to four chassis colours¹ as well as a range of optional colour-coordinated accessories.

Beautiful design for personal style

The new VAIO E Series packs essential functionality and user-centric features into a stylish yet practical design. The chassis features the unique Truss pattern – numerous hexagons formed by small triangles -- on the top panel and palm rest. This manually designed pattern provides a distinctive feel to the touch. Thanks to the 3D texture as well as a special durable hard film coating, fingerprints and smudges are less likely to remain

on the chassis even after a whole day of use.

There is a choice of up to four chassis colours², including matte Black and Dark Blue as well as glossy White and Pink. Customers can further personalize each of the models with a wide selection of optional colour-coordinated accessories such as new keyboard skins, wireless and Bluetooth® optical mice, as well as carrying cases and pouches.

Optimized performance for everyday use

The new VAIO E Series features a perfect blend of design, usability and performance for everyday use. The VAIO E Series 14", 15.5" and 17.3" models offer the 2nd generation Intel® Core™ processor with improved adaptive performance and 4-way multi-task processing that handles everyday computing requirements swiftly, while the NVIDIA® GeForce® 410M GPU option allows the users to enjoy any multimedia applications with ease.

Built for environmentally conscious users, the VAIO EL16 model (15.5") packs the latest AMD Dual-Core Processor E-350 featuring enhanced processing power and superior power efficiency. Equipped with AMD Radeon™ HD6310 Discrete-Class Graphics, the notebook delivers responsive gaming and vivid video playback with extended battery life.

Available in three screen sizes of 14"(EG), 15.5" (EL/EH) and 17.3" (EJ), the VAIO E Series is equipped with LED backlight with HD resolutions up to 1600 x900, allowing customers to find the perfect matches for their specific needs.

Enhanced usability & ease-of-use

The new VAIO E Series features three easy-to-use, direct buttons – WEB, ASSIST and VAIO – which allow users to get exactly what is needed with only one touch of a button. The WEB button provides quick access to the Internet without full boot up into Windows, while the VAIO button launches directly into Sony's Media Gallery software for enjoying photos, videos and music in a fun way. Users can simply press the ASSIST button to launch the VAIO Care™ software program for a quick system diagnostics and troubleshooting support. The new VAIO E Series is also pre-installed with PMB (Picture Motion Browser) VAIO Edition software for easy management of photos and videos.

Under the three unique buttons is a back-lit, isolation keyboard, with a handy numeric keypad (only available on 15.5" and 17.3" models) optimized for comfortable typing. The
