

Press Release

Expand your Listening Pleasure with Sony's Splash-proof Portable Wireless Speakers
The new wireless speakers SRS-XB3 and SRS-XB2 with EXTRA BASS deliver a pure bass sound for on-the-go music enjoyment

SRS-XB3

Hong Kong, May 5, 2016 – Sony's latest splash-proof portable wireless speakers with EXTRA BASS¹, the SRS-XB3 and SRS-XB2, feature a portable compact body with big sound. Made for on-the-go music pleasure, the two speakers boast a huge battery life (up to 24 hours on the XB3, up to 12 hours on the XB2) – letting you listen longer with no need to look for a plug. Splash-proof to IPX5² standard, they're equally at home in the kitchen, outside or providing the soundtrack for a summer poolside party.

The XB3 fills the room with crisp, loud stereo sound with a range of technologies. In addition to Sony's DSP signal processing technology, the XB3 comes with a newly developed 48mm large full range speaker unit, a large capacity battery to achieve stable and significant output power and dual passive radiators to augment the bass ranges.

¹ EXTRA BASS is a Sony trademark.

² The device is not fully water resistant. Do not immerse in water. Do not expose to sea water.

Weighing just 930g, the XB3 can even charge your connected smartphone – handy if you're in any place with no mains nearby.

SRS-XB2

The SRS-XB2's smaller design weighs just 480g but encompasses a newly developed 42mm gauge full range speaker unit. Its extra strong magnets deliver a pure bass sound and the lightweight diaphragm improves sound pressure levels. The XB2 also houses Sony's DSP signal processing technology and passive radiator which all help to achieve high acoustic pressure and punchy bass notes that deliver more than the eye would believe.

The handy Speaker Add function lets you wirelessly hook up a second XB3/XB2 unit, instantly increasing your music power with a choice of Double and Stereo speaker modes. Touch your NFC compatible Walkman[®], smartphone or tablet against our compact, the new speakers to start streaming brilliantly pure, clear digital sound.

Sony's new splash-proof portable wireless speakers with EXTRA BASS SRS-XB3 and SRS-XB2 offer a range of dazzling colours to choose from, including yellow, blue, red, khaki, dark green and black. The SRS-XB3 and SRS-XB2 are now available at HK\$1,280 and HK\$780 (Sony Store's selling prices) respectively.

For customer enquiries, please contact Sony hotline service at (852) 2345-2966.
