## Press Release

### Sony Launches GP-VPT3 / RMT-VP2

*The Three-in-One Wireless Shooting Grip serves as a grip, a tripod, and a detachable remote commander, enhancing usability and convenience for greater freedom in capturing videos and still images*

**Hong Kong, May 22, 2025** – Sony introduces the Wireless Shooting Grip / Tripod "[GP-VPT3](#)" and Remote Commander "[RMT-VP2](#)" featuring Bluetooth® wireless technology compatible with Alpha™ Series and Vlog Camera Series<sup>1</sup>. The "GP-VPT3" supports stable handheld shooting with a grip design optimised for ease of use and flexible shooting angles, accommodating cameras weighing up to 1.5 kg<sup>2</sup>. The grip can be used as a tripod and the remote commander can be detached and used as a remote control.

The ergonomically designed grip allows handheld shooting while performing key camera operations, such as zoom and focus, with one hand, regardless of dominant hand, for both still images and videos. The head mechanism allows for one-touch switching between self-portrait and outward shooting, and the tilt mechanism enables free angle adjustment.

The detachable remote commander is equipped with a MOVIE button, Zoom/Focus button, and C1 (Custom) button, allowing one-handed operation. This allows shutter operation from a distance so the photographer can be included in group photos and reduces camera shake in low-light conditions. The remote commander connects to Sony cameras and Xperia™ smartphones with a wireless communication range of approximately 10 m<sup>3</sup>. The grip and remote commander connect to the main unit without cables or receivers, maintaining dust and moisture proof performance during camera connection<sup>4</sup>.

The GP-VPT3 is available in black and white options<sup>5</sup>. The remote commander RMT-VP2 is also available for purchase separately.

### **Pricing and Availability**

The Wireless Shooting Grip / Tripod (GP-VPT3) and Remote Commander (RMT-VP2) will be available from 6 June 2025 at HK\$1,090 and HK\$590 respectively.

### **About Hong Kong Marketing Company**

Hong Kong Marketing Company (HKMC), a division of Sony Corporation of Hong Kong Limited, provides sales, marketing and after sales services for Sony's consumer electronics products as well as broadcast and professional products in Hong Kong and Macau. For more information on Sony's products and services, please visit our website at <http://www.sony.com.hk>.

---

<sup>1</sup> For compatible cameras, please visit <https://www.sony.net/dics/gpvpt3/>.

<sup>2</sup> Lenses that can be attached to interchangeable lens cameras are limited to those with a total mass of 1.5 kg or less, including the camera body. Please note that even within the load capacity, the camera may fall over when using a tripod, depending on the lens used and the usage environment.

<sup>3</sup> Based on Sony's measurement environment. Actual performance may vary depending on surrounding conditions such as the presence of obstacles (metal, human bodies, etc.) or reflective surfaces, and radio wave conditions.

<sup>4</sup> This device is designed to be dust and drip-resistant, but it does not completely prevent the ingress of dust or water droplets.

<sup>5</sup> The RMT-VP2 is available only in black.
